

Grid Pad Tablet

A Windows 8 tablet for talking all day long

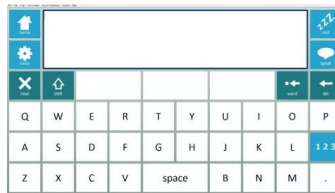

The **Grid Pad** is a slim, stylish and powerful communication aid that combines The Grid 2 and the high performance Windows 8 operating system – making it our fastest device ever.

At a mere 1.45 pounds it is lighter than an iPad. The 10.1" touch screen display has Gorilla Glass for durability. It comes with a Griffin Survivor case to protect it while you carry it through your day.

Servus 10-Z ECU Tablet

So you can take complete control of your world

The **Servus 10-Z Environment Control** system consists of a small tablet computer running The Grid 2 ECU software, with a BackBox that contains the environment controllers, a control switch interface, a radio switch receiver, and a USB port for the connection of alternative input devices.

Send infrared signals to control a TV, cable box, or even an accessible elevator system, or control appliances with Z-Wave radio signals.

ATIA in Orlando

Visit with ZYGO at booth **#615** at the ATIA 2014 conference being held Jan. 27 through Feb. 1. We are pleased to show a number of new things we have introduced since last January, as well as our featured products.

Partnerships in Assistive Technology
