ZYGO-USA   Assistive Technologies for Communication and Independence

Product Spotlight: *ZyBox for iOS*

The **ZyBox for iOS** is the simplest way to use control switches to operate your iPad or other iOS device. Connect the **ZyBox for iOS** to your iPad using the 30-pin or Lightning dock connector, snap in one, two, or up to six control switches with 3.5 mm plugs, and you have access to the entire iPad and any or all apps that are compatible with the iOS Voice Over (VO) commands.

The **ZyBox for iOS** has six modes based on the number of switches you use to operate your iOS device. Each mode has specific VO commands associated with each available switch.

We also are able to provide a customized voice over matrix to meet your needs for a specific app you are running. So if you require a unique set of commands or the software app you are using is expecting to receive certain voice over instructions, we can supply that.

ECU grids   *for The Grid 2*

The Grid 2.9 brings in a new system for Environment Control, making it much easier to use. With the new system, your grids state what you want to do (for example, turn on the TV) and your computer stores the information about how to do this.

This change allows you to use and share Environment Control grids very easily. Sensory has made some new grids for using Environment Control with The Grid 2, we have modified them slightly to U.S. English, and you can download these page sets from Online Grids or let us know and we can e-mail the bundles directly to you.

CSUN Conference in San Diego

ZYGO-USA will be helping Sensory Software next month at the 2013 CSUN Conference at the Manchester Grand Hyatt Hotel in San Diego from February 27 to March 1, 2013.

Demo products and literature

All of our products are available to SLP's and AT Centers for evaluation demonstrations. We have special pricing so you can add our products to your AT Center. And let us know if you need any catalogs, or The Grid 2 demo CD's, or other product literature to hand out.

If you have any questions or need any support for our products, please contact me at Adam@zygo-usa.com, or by phone at (888) 321-6006, or any of our Customer Support representatives at zygo@zygo-usa.com, support@zygo-usa.com, or (800) 234-6006.
